EXPERIENCE

UI/UX Developer | Sourcing Solution Technologies | Dubai, UAE

Jan 2023 – Present

Role and responsibilities: (contract working in [bahri.sa](#))

- Creating user interfaces for job portal web applications that are simple and effective to use, as well as improving the look, functionality, and appearance. To demonstrate user experience design concepts, create wireframes, storyboards, process flows, and sitemaps. Analyze user behavior to create one-of-a-kind graphic designs such as images, sketches, infographics, tables, and so on.
- Collaborating with high-performing multidisciplinary teams such as product managers, researchers, scrum masters, and web developers to gather and evaluate user requirements, as well as restructuring and troubleshooting to resolve UI problems such as responsiveness and functionality.
- Built the product's first phase and deployed it for testing and tried to scale the platform through user testing.
- **Tools:** Balsamiq, Figma, Photoshop, Illustrator, Jira, Bootstrap, Angular, Kendo

UX Consultant | Hadron Finsys GmbH | Switzerland / Remote work

Nov 2021 – Feb 2023

Role and responsibilities:

- Creating websites and mobile applications with user interfaces that are easy and effective to use and enhance the look, functionality and appearance. Illustrate user experience design ideas using wireframes, storyboards, process flows and sitemaps. Analyse user behaviours for creating original graphic designs such as images, sketches, infographics, tables, etc.

- Gathering and evaluating user requirements in collaborating with high-performing multidisciplinary teams such as product managers, researchers, copywriters, and developers.
- Built the product's second phase and deployed it for testing and tried to scale the platform through user testing.
- Restructured and troubleshooting resolved user experience problems such as responsiveness, and functionality.
- **Tools:** Balsamiq, Figma, Photoshop, Illustrator, Jira.

UI/UX Designer | Internet Wallet Myanmar Ltd. | Yangon, Myanmar

Apr 2019 – Oct 2021

Role and responsibilities:

- Developed user interface designs and prototypes that clearly illustrate how mobile apps function and look. Adhered to style standards on fonts, colours, images and graphic user interface elements.
- Communicated and collaborated with team members for refining and documenting specs and managing multiple projects to tight deadlines.
- Constituting user flows and prototypes to communicate interaction, design ideas and micro animations.
- **Tools:** Adobe XD, Photoshop, Illustrator, After Effects.

UI/UX Developer | Eurozapp Technologies (P) Ltd. | Kerala, India

Oct 2016 – Dec 2018

Role and responsibilities:

- Ideated visualising, designing and developing theme concepts for websites using Photoshop and Illustrator. Coded complex PSD website mock-up designs to responsive web development using front-end technologies.
- Creating website mockup user interfaces that are easy and effective to use and enhance the look, functionality and appearance.
- Experience in planning, integrating and modifying user interface systems with attention to detail. Develop creative design elements and integrate them to make attractive responsive website designs.
- **Tools:** HTML5, CSS3, JavaScript, Bootstrap, Photoshop, Illustrator.

HTML Developer | Webna Web Solutions (P) Ltd. | Kerala, India

Nov 2015 – Aug 2016

Role and responsibilities:

- Meeting with Web designers to discuss project design and layout. Coding the entire HTML site from end to end. Debugging code and front-end web applications. Ensuring cross-platform compatibility.
- Conducting website performance and usability tests. Meeting publication deadlines. Providing user support.
- Excellent analytical skills were helpful in understanding problems, bugs and finding the solutions for the same. Debugged syntax errors and bugs encountered in the functioning of the websites.
- **Tools:** HTML5, CSS3, JavaScript, Bootstrap, Photoshop, Illustrator.
